

Lewis & Clark

THE EXPEDITION

plato

Benjamin Bord

When recruiting, pay one fewer equipment per indian who activates this card.

G1

Cédric Chaboussit

When you play Cédric Chaboussit, you can change any space in front of your Scout into a Mountain space if it is a River space, or into a River space if it is a Mountain. Use the Additional Route tokens to do so.

G2

Uwe Rosenberg

When you play Uwe Rosenberg, place one primary resource from your boats on it. At the end of your next Camp phase, take this resource back on your boats with one extra resource of the same type from the stock.

This action can be performed several times with various resources, e.g., if I activate this action three times placing 1 fur and 2 wood on the card, after my next Camp phase I get 1 extra fur and 2 extra wood from the stock.

G3

Bauza & Cathala

When playing Bauza & Cathala, the active player takes randomly from the stock two primary resources per player. He can keep up to two resources for himself, placing them on his boats, then he gives the remaining resources to the player of his choice. This player takes up to two resources for himself, then gives the remaining resources to a player of his choice who has not yet received resources from this card. This process continues until all players have had a chance to take resources. At that time, any remaining resources are returned to the stock.
