

Living Forest

Sanki and Onibi between good and evil

Sanki and Onibi are at the heart of the story told by Living Forest, they are the supreme beings who created the balance in the Forest.

Setup

Take the two cards Onibi and Sanki and place them face up next to the Circle of Spirits.

Rules

You will recruit and play these cards like the Guardian Animal cards but they will not bring new Fire tiles during the third phase "Onibi attacks the Holy Tree!"

The Sanki card

When you buy the Sanki card, place it on top of your personal draw stack, face down.

When revealed in your Help line, the Sanki card will provide you with 5 Sacred Flowers. Reminder: having 12 Flowers visible on your Help line, on your Forest board and on the Flower Victory tiles (if you have any) is a victory condition.

Sanki is the great Guardian of the Forest. After having participated in its creation, he plunged into an eternal sleep in order to acquire Great Wisdom.

The Onibi card

When you buy the Onibi card, place it on top of your personal draw stack, face down.

When revealed in your Help line, all Nature Spirits except you take **only one** action, regardless of the solitary and gregarious symbols in their Help line.

They must still stop drawing at the third solitary symbol ☹️.

Rappel : A gregarious symbol ☺️ cancels a solitary symbol ☹️. It will therefore be possible to play more than 3 solitary Guardian Animals in the same turn, provided that you have already revealed one or more gregarious Guardian Animals.

Onibi is never far away! If you can't repel him for good, he won't stop sending out his flames and will do anything to stop you from taking action. How did he come to this? He was once the father of solitary guardian animals who brought fertility to the land of the Forest.
