

Lost Explorers

WHO ARE THESE FAMOUS ADVENTURERS?

Will you play the brave Beth Mc Journey, the reckless Ivan Mochilero, the intrepid Lynda Reisender or the determined Paul Beaulieu?

SETUP

Take the card of the Adventurer you have chosen to play as, and place it in front of you, power side.

Take the Expedition Members and Leaders of the color associated with this character and set up the game as indicated in the rules, pages 2 and 3.

RULES

Each adventurer has a special power. You can use it only **once in the game**, whenever you want.

Once you've used your character's special power, flip the card over. You will no longer be able to use it during the game.

THE ADVENTURERS AND THEIR POWERS

BETH MC JOURNEY

This brave alpinist has climbed the K2 mountain twice the same month, a first in Human history. Now that she has accomplished this incredible challenge, Beth Mc Journey would like to take it easy and drink cocktails in this lost world which seems to be a little paradise...

HER POWER

With Beth, move the Expedition Leader of your choice one space forward on their Explorer track, then move the other Expedition Leader back one space. Important: you may lose a Clue or the 4th Expedition Member if you go back to the space before they were obtained.

IVAN MOCHILERO

Ivan Mochilero fears nothing, give him any challenge and he will meet it. He is world famous for having moonwalked the globe, from latitude to longitude, on the equator line and on the Greenwich meridian.

HIS POWER

With Ivan, choose any Vehicle in the equipment zone of your choice by sending only **one** Expedition Member. You can keep it on the side you want, Vehicle or Mission.

LYNDA REISENDER

You've probably already heard of Lynda Reisender, the woman of the 1000 snakebites. She has tested everything, ventured into every corner of the world. So when she heard about the discovery of a lost world, she didn't hesitate for a single second, she jumped in her batmobile and went to Venice.

HER POWER

With Lynda, use a Vehicle instead of another when sending an Expedition Member to a Location.

PAUL BEAULIEU

Paul is arguably the most formidable adventurer of the 21st century. With a training of archaeologist coupled with a reckless character and the looks of Brad Pitt, he will give everything to be the first to discover this famous secret entrance to the lost world...

HIS POWER

With Paul, move a Validated Location marker of your choice to any other Location.
